

NEW CX HDMI® 2.1 Cables

Ultra High Speed Active Optical Cables

This Ultra High Speed Active HDMI® 2.1 cable delivers full-bandwidth 48 Gbps performance for 4K/120fps, 8K/60fps and up to 10K video. They pass every major HDR format, including Dolby Vision, HDR10+, HDR10, and HLG, and they carry the full suite of HDMI® 2.1 enhancements such as VRR, QFT, ALLM, QMS, and SBTM for smoother motion, lower latency, and seamless source switching. Their CL3 in-wall rating supports professional installations,

and seamless source switching. making them suitable for both custom residential builds and commercial integrations. Together, these advanced capabilities create a reliable, adaptable HDMI® backbone for systems that demand maximum picture, motion, and audio integrity.

Directional Ends eliminates errors
