

Gigabit Fiber SFP Optical Transceiver Module

1000Base-SX (LC) Multi-Mode Port, 550 m

Part No.: **545006**

Gigabit Fiber SFP Optical Transceiver Module

The new line of Intellinet Network Solutions Small Form Factor Pluggable (SFP) Transceivers provides customers with a combination of performance and affordability. These mini-GBIC (Gigabit Interface Converter) modules come in a metal housing that reduces electromagnetic interference and increases their durability.

Small Size for High-Density Fiber Connections

The transceiver comes in a mini-GBIC form factor, making it ideal for environments that require many fiber connections by taking up less space in your cabinet and/or computer room.

Multi-Vendor Compatible

Compatibility in your network is everything, and the Intellinet SFP Transceiver Module (model 545006) delivers. Use it with any Intellinet SFP equipped network switch or any other MSA compliant SFP enabled switch. And since the Intellinet SFP transceiver module is set to broadcast the vendor pn GLC-SX-MM, compatibility to your Cisco gear is provided.

Hot-Pluggable

No need to power down your LAN switch in order to install or remove the transceiver. This makes it very convenient and easy for you to make adjustments to your network that allow your business to keep pace with the changing demands of the market.
