

M1 Security & Automation Controls

**SECURITY • ENERGY & TASK MANAGEMENT • LIGHTING
DOOR CONTROL • HOME & BUSINESS CONTROL**

Applications:

- Advanced Security System
- Voice vocabulary with pleasing human voice guides you through the system
Eliminates intimidation of working with electronics by providing status alerts, reminders, and help with the system through on-site speakers or via the telephone remote control and voice dialer.
- Telephone Remote Control
 - Allows control of system tasks from any phone - on or off site
 - While away close garage door, arm/disarm system, adjust thermostat, etc.
- Telephone Dialer with voice vocabulary
 - Provides system alerts to as many as 8 different telephone numbers & individual number(s) can be selected for each event
 - Advises of alarm activation, temperature alerts, water leaks, latchkey child's arrival home, visitors, or any event in which you request notification
- Lighting Control for mood, security, and energy management
 - Scenes and varying brightness levels
 - Automated by time, event, or occupancy
- Energy Management with scheduling to provide comfort and savings
 - Control of thermostats, electric water heaters, lights, blinds, drapes, etc
 - Automated by time, event, or occupancy
- Task management
 - Watering the lawn
 - Drapery/Blind control
 - Controlling pumps
 - Outside lights auto on at sunset for set time limit
- Door Control for 16 doors
 - No need to memorize security codes
 - Allows different access levels per user
 - Provides activity logging
- Astronomical clock for scheduling tasks and time based events
 - Provides daylight and dark intelligence for automation conditions
- Sensing electronics can read and report levels readings on water, temperature, etc.
 - Voice alerts of unsatisfactory levels; temperature sensing from -50 to +140° F
- Wireless capability eliminates interference with decor
- Wireless keyfob can arm/disarm, sound panic alarm, control lighting, garage door, etc.
- Two-way Talk back and listen-in capability
- IP Control & Monitoring capability: 3 Remote Control options without monthly fees & Cloud service, too.
