

Wi-Fi Doorbell Camera | Skybell® HD Edition

Provide Instant Front Door Awareness

The Alarm.com Wi-Fi Doorbell Camera is a doorbell with an integrated camera, PIR motion sensor, digital microphone and speaker, enabling homeowners to answer the door, speak to visitors via two-way audio, record doorbell triggered clips, and set motion triggered automation rules – all right from their Alarm.com app.

Your customers will always know who is at the front door! With a 1080p camera, motion sensors, color night vision, real-time alerts and Smart Home automation, the Skybell HD and Alarm.com are helping to create safer homes for your customers.

With the Alarm.com Wi-Fi Doorbell Camera, your customers will enjoy:

**Integration with Home Automation Devices**

Unlock the door right from the app when you receive a doorbell notification.

**On-Demand Video & Recorded Clips**

Check live view video feed from the app, or record clips automatically when the doorbell is pressed or motion is detected.

**Two-Way Audio**

Have a two-way conversation with visitors from your mobile device.

**Motion Sensor**

Get alerts when a visitor is in front of the door, even if they don't press the doorbell.

**Full Color Night Vision**

Feel safer knowing visitors can be seen even at night.

**Silent Mode**

Remotely turn off the indoor chime when someone is asleep in the house. Receive notifications on your mobile device instead of ringing the chime.

**Intelligent Lighting Automation**

Set up rules to automatically turn on the porch lights when motion is detected at night.

**Multiple User Capability**

When the doorbell rings, alerts can be sent to multiple users on multiple devices.
